

Scouting for Food 2016

This year the date for Scouting for Food is being left up to units. You can have your food drive when it best fits into your calendar and benefits most the food bank your unit supports. We need each unit to fill out a request form for bags and stickers. Once your unit has completed its food drive, it is very important that you complete the Scouting for Food report. The sponsor of this program wants to know how many Scouts and Scouters participate, the amount of time they give, and the amount of food collected. Whether your unit has its food drive in the spring, summer, or fall, what matters is that we as Scouts are serving those who need assistance.
