As a mom, why do you choose Scouting for your family?

"Scouting offers active whole family participation where we can spend quality time creating memories with our kids beyond being a passive spectator and taxi service to sports and lessons. They are developing strong leadership and life skills like cooking, budgeting, time management, first aid and home repair while having fun. If you are looking for an extracurricular that will benefit your child the rest of their life; one that is linked to greater community involvement and introduction to STEM and communication careers, Scouting is the way to go."
